

# FAST FLOW PUMPS

## 6" Ductile Iron Open Channel Pump

### Fast Facts

- 297lb / 135kg
- 2100GPM / 7949LPM Water Flow
- 125ft / 38m Vertical Head
- 2250 - 5000PSI / 155 - 345 Bar
- 5-35 GPM / 30 - 40 LPM Hydraulic Flow
- 2.75" Pumpable Solids
- 4" Male Camlock
- 16" x 16" x 20" / 400mm - 500mm

4" DUCTILE IRON OPEN CHANNEL PUMP

## More Information

### Features

- Very High Flow Rates
- High Vertical Head Pressure
- Self Priming
- Variable Speed & Flow
- Explosionproof
- Impeller shreds soft debris

### Competitive Advantages

- Drill rig well cellar pumping
- Handles abrasive solids pumping applications
- Anti-clog twin motor, double suction technology
- Lightweight dredge at 230LBS (104kg)
- Durable steel pump parts for long life
- Cost effective compared to other pumps

The 6D-OCP is a powerful submersible sewer pump for sewage and sludge. The pump features a bladed impeller design designed to macerate sewage and slurry. The pump is constructed of durable cast iron with a powder coating for corrosion resistance and long life. The 6D-OCP is ideal for use in municipal, industrial and commercial applications where sewage or sludge needs to be removed from an area quickly and efficiently.

### Applications

- Oilfield applications
- Solids slurry pumping
- Papermill Pulp
- Black Liquor
- White Liquor
- Barge pumping
- Oil storage maintenance
- Heavy crude pumping
- Refinery tank cleaning
