

FAST FLOW PUMPS

35HP Diesel Hydraulic Unit

Fast Facts

- 35HP / 26kw
- 1000-3000PSI / 172-206 Bar
- Up to 16GPM (61 LPM) Hydraulic Flow
- 18 Gallon (68 Liter) Hydraulic Tank
- 40 Gallon (151 Liter) Diesel Tank
- Weights 1750lbs (794kg)
- 66" x 40" x 49" (168cm x 102cm x 124cm)
- 32 or 46 AW, BIO, NS Hydraulic Fluid

35HP DIESEL HYDRAULIC POWER UNIT

FEATURES

Engine

- Tier 4 Final Yanmar Engine
- Reliable and durable design
- 50 State Emissions
- Engine safety shutdown package
- Rubber engine vibration dampers
- Electric start with battery
- Weather safe battery box

Hydraulics

- Single circuit variable flow hydraulic controls
- High capacity hydraulic cooling system
- Hydraulic oil filter with spin on cartridge
- 3/4" or 1" quick disconnect couplings
- 5000 PSI hydraulic gauges
- Screw together supply and return fittings
- High efficiency gear pump

Safety

- 18 Gallon fuel tank with level indicator
- Hydraulic system adjustable relief valve
- Hydraulic Isolation Valve
- Easy to read operation labeling
- Hydraulic oil level & temperature indicators
- Safety labeling

Power you can rely on - anywhere you need it. The 35HP Diesel Hydraulic Power Unit is part of our trusted standard line of hydraulic systems, engineered for consistent performance in a wide range of field applications. With a lightweight frame and compact footprint, this unit is easy to transport and deploy—without sacrificing the power you expect from a 35-horsepower diesel engine. Designed with both functionality and durability in mind, this hydraulic power unit is equipped with a high-efficiency gear pump and a robust cooling system to ensure optimal performance even in demanding conditions. The advanced hydraulic controls provide precise operation, making it an ideal choice for projects requiring reliable power delivery.

Hydraulic Capabilities

18GPM	2500PSI
15GPM	3000PSI
11GPM	4000PSI
